Project Objectives

- Deliver an integrated research suite that will support the conduct of research in a compliant manner
- Reduce administrative burden on faculty and staff who prepare, review, and approve research process documents
- Increase transparency for department and central offices of the routing and approval process
- Provide improved reporting capabilities and enhanced information for decision making
- Provide a system with high stability, reliability, availability, and performance

Implementation Timeline

eSPEAR Certificate Series

- Comprehensive online research administration training program
 - eSPEAR Certification provided upon completion
- Provides foundational knowledge in research administration
 - Available on-demand in online format
- Courses will be introduced as available
 - First courses available in April
 - Full program completed and available early 2020
